1. It is suggested that the title of the paper be corrected to: **Formulation, Development and Characterization of ….**
2. Draw the chemical structure of Lurasidone hydrochloride, and report the reasons for selecting this agent.
3. Add the FTIR spectrum of all formulations, and discuss it (like this article: *Quantitative analyze of fourier transform infrared spectroscopy (FTIR) of poly (lactic acid) after UV/Ozone irradiation*).
4. Discuss the **releasing** behavior of Lurasidone hydrochloride more comprehensively. (Burst release? Why?)
5. Add some proper references like:

- Efficacy and safety of lurasidone in schizophrenia: pooled analysis of European results from double-blind, placebo-controlled 6-week studies
