Peer Review

Review of: "Giardia lamblia infection And Associated Risk Factors Among Patients Who Are Seeking Stool Examination At Bule Hora University Teaching Hospital, West Guji Zone, Ethiopia"

Samirah David[1]

1. Microiology, University of Jos, Nigeria

1. The title is wordy: For a title to be clear, impactful, and attention-grabbing, it should be brief, concise, and focused. Recast the title as "Giardiasis and Associated Factors Among Patients Seeking Stool Examination at Bule Hora University Teaching Hospital, West Guji Zone, Ethiopia."

2. Study Area and Period: No need for that reference since it's primary data.

3. Move Ethical Approval and Consent before sample collection.

4. Figure 1 should be presented before the socio-demographic variables.
