Peer Review

Review of: "Biosynthesis of calcium carbonate nanoparticles and evaluation of their cytotoxicity activity"

Farnaz Sadat Fattahi[1]

1. Isfahan University of Technology, Iran, Islamic Republic of

1. Add some specific data to the abstract section. 2. Draw the chemical structure of calcium carbonate and calcium oxide in the introduction section. 3. Add some references from the Nanochemistry Research Journal and other journals like:⊠ Synthesis of polylactic acid nanoparticles for novel biomedical applications: a scientific perspective.⊠ Poly (Lactic Acid) Nanoparticles: A Promising Hope to Overcome the Cancers
