Review of: "Nanotechnology to Overcome Multidrug Resistance in Breast Cancer: Advanced Delivery Strategies and Clinical Horizons"

Farnaz Sadat Fattahi[1]

1. Isfahan University of Technology, Iran, Islamic Republic of

1. Add a proper table to the text. 2. Check the whole article grammatically. 3. Add more schematic figures to the subsections. 4. Add some proper references like:⊠ Synthesis of polylactic acid nanoparticles for novel biomedical applications: a scientific perspective.⊠ Poly (Lactic Acid) Nanoparticles: A Promising Hope to Overcome the Cancers
