Potential competing interests: No potential competing interests to declare.

Approved for publication without any corrections. Easy to understand language, and this manuscript is suitable for all ages. Keep up the good work. All subtitles are there; nothing is missing. Additional knowledge on the benefits of *Berchemia zeyheri*. Please italicize the scientific name in the title. Add 1 problem statement in the Introduction: why you need to study this plant. For example, why you need this natural antioxidant in your daily life. Need to add the disadvantages of synthetic antioxidants.
