

# Review of: "Investigation of Mechanical Properties of Sisal Fiber and Sugar Palm Fiber Reinforced Hybrid Composites"

Bavithran Bg

Potential competing interests: No potential competing interests to declare.

1. Fiber and Fibre - please follow any one of the spellings.
2. The introduction part should have an explanation of the motive to choose the concerned natural fiber, and references should be more plentiful.
3. Materials and methods are more introductory rather than a crisp summary.
4. The effort for preparation is appreciable.
5. Graphs can be more appealing.
6. Percentage of water can be represented as W (%).
7. Very common tests were carried out and lack novelty.
8. References are minimal and should be explored more.
9. More scientific tests can be done.
10. Should justify the application properly.
