Association of American Cancer Institutes

National Cancer Institute

Source

National Cancer Institute. *Association of American Cancer Institutes*. NCI Thesaurus. Code C39324.

Comprised of 80 of the leading academic and freestanding cancer research centers in the United States. Almost all of the National Cancer Institute-designated centers are members and the remaining member institutions are academic-based cancer programs that receive NCI support. The AACI's mission combines those of its member institutions and the national cancer program.
