

Review of: "Building a digital republic to reduce health disparities and improve population health in the United States"

Hazem Almassry

Potential competing interests: The author(s) declared that no potential competing interests exist.

Interesting topic to be addressed. I, however, suggest to take care of the following points:

- 1- The authors started the definition of digital republic with example, what is the definition of digital republic?
- 2- The methodology is not clear and needs to be shown in the abstract and the other parts of the study.
- 3- References are not high impact ones, and they aren't the newest in the field.
- 4- The conclusion is general
