

Review of: "Assessment of Microbiological Quality, Phytochemicals, Trace Elements and Proximate Analysis of Bio-Clean II Herbal Remedy"

Shabnam Ara

Potential competing interests: The author(s) declared that no potential competing interests exist.

There may be other viral infections where Bio-Clean II research applications beyond HIV should be discussed. In terms of the study's potential future uses, the conclusion is weak and needs to be more specific. There are grammatical and spelling errors that need to be corrected. I will support approving this article if all the issues can be resolved and the revision is completed successfully.
