Dear Editor ,

I wish to extend my sincere gratitude to you for sharing the valuable article with me for peer review. The article (Title : Quaternion Quantum Mechanics: Unraveling the Mysteries of Gravity and Quantum Mechanics within the Planck-Kleinert Crystal) is well-written; however, I kindly request your attention to the following observations:

1- Add more references to the introduction.

2-Write a simple introduction to quantum mechanics at the beginning of the introduction

3-Write an additional paragraph in the conclusion about some future work related to the development of work on the completed article

Finally, I recommend publishing the article
