# Review of: "What Counts as Green AI? Mapping Efficiency, Sustainability, and Critical-Ecological Strands in a Fragmented Discourse"

Durgesh Singh<sup>1</sup>

1. PDPM Indian Institute of Information Technology, Design and Manufacturing Jabalpur, Jabalpur, India

This paper provides a robust conceptual foundation for understanding Green AI as a multi-stranded, interdisciplinary discourse. Strengthening the empirical and operational aspects would make it publishable in top-tier AI ethics or environmental policy journals.
