

Review of: "Pharmacologically Altering the Minds of the Old, Sick, and Dying"

Yuliya Nastyukha

Potential competing interests: No potential competing interests to declare.

Dear author, in the article, you write about "potentially inappropriate medication" in the example of the Beers Criteria. Then you present "potentially inappropriate medications" in palliative care. However, the Beers Criteria says, "We remind readers that the AGS Beers Criteria® do not apply to care in hospice and at the end of life" (By the 2023 American Geriatrics Society Beers Criteria® Update Expert Panel. American Geriatrics Society 2023 updated AGS Beers Criteria® for potentially inappropriate medication use in older adults. J Am Geriatr Soc. 2023;1-30. doi:10.1111/jgs.18372).

Could you clarify this issue?
