Paper title: Forecasting by Analogy: A Parallel between the Trend of Confirmed COVID-19 Deaths in the Winters of 2022/2023 and 2023/2024 in Italy

Comments

1. There are some typos in the abstract that should be removed. You could get help from the free Grammarly account.
2. It is seen that Figure 1 is the result of the paper. It should come under the Results section. All the descriptions should be there in the Results and Discussion section.
3. There should be a separate section for the data, namely "2.1 Data Description." In the data description, data should be given in tabular format.
4. There should be a separate section for the method: "2.1 Methodology."
5. Nothing new is there in the Methods.
6. Draw the change pattern for the two time series.
7. Practical implications are missing in the paper.
