Potential competing interests: No potential competing interests to declare.

Congratulations to researchers who have completed this paper quite completely. There are several points to pay attention to:

1. It is recommended to enrich this research with further explanation regarding "Can this research be generalized?"
2. In-depth discussions need to be carried out to determine the relationship between variables in the theory that has been developed with the results of field findings.
3. The implications of research results, both theoretical and practical implications for cooperative stakeholders, must be stated clearly.
