Gaucher disease

INSERM

Source

INSERM. (1999). Orphanet: an online rare disease and orphan drug data base. Gaucher disease. ORPHA:355

Gaucher disease (GD) is a lysosomal storage disorder encompassing three main forms (types 1, 2 and 3), a fetal form and a variant with cardiac involvement (Gaucher disease - ophthalmoplegia - cardiovascular calcification or Gaucher-like disease).
