Thank you for inviting me to review the paper ["Examining the Comparative Effect of the Built Environment on Crime Prevention in Plotted Development, Especially for Women's Safety at Both Hot and Cold Spots"](#). The paper presented a hot topic on built environment for women's safety in India. Overall, the paper found out the physical indicator of the built environment which can create a safe environment for women.

According to the scope of this study, authors conducted the structure of manuscript well, however; in the conclusion of manuscript is too short, it was not balances with methodology which had structure well. That is minor error, the manuscript is ready for publication.
