

Review of: "How E-School Counseling Has Supported Learners Facing Pandemic Challenges: Results and Perspectives for Counseling Professionals"

Binu James Mathew

Potential competing interests: No potential competing interests to declare.

A very well designed study with valid methodology and approach. The report has been well written with academic vocabulary following readability approaches. There is sufficient coherence and cohesion in the report and is a valuable reference for those intend to study related areas. Perhaps, the study could have dealt the matter in further indepth ways to encompass the title with a holistic perspective.
