

Review of: "Process for Implementing a Quality Management System (QMS) Adapted to Architectural Practices in Tunisia, in the Case of ISO 9001"

Deusdedith Maganga

Potential competing interests: No potential competing interests to declare.

1. State the nature of the paper, whether it is a conceptual, review, or research article
2. Align the article with the respective type of paper structure
3. Define key words used in the articles, such as QMS, QMS principles, architectural practices, ISO, etc
4. Explain how key principles of ISO 9001, such as the process approach, risk-based thinking, and the PDCA cycle, in line with the quality management principles, can be utilized in the context of architecture
5. Provide citations to back up some of your argumentation/claims
6. The study should focus on the implementation of ISO 9001 with respect to architectural practices as a case study. Discuss the road map/process on how ISO 9001 can be adopted in architectural practices.
7. Table 1, which explains the process that architecture can use to implement ISO 9001, should be removed from the ISO 9001 benefits section and be explained in a separate paragraph
