Potential competing interests: No potential competing interests to declare.

The authors identify an important theme in today's academic and practitioner literature. To enhance this viewpoint positioned paper, could be the inclusion of some further context, perhaps a more clearly defined scope and some additional evidence and literature to underline the significance of the study. This additional material could be supported by some development of the contribution of this paper, with some clear take-aways that readers can take forward and apply to different scenarios. Thank you for your scholarly engagement.
