Title would be better, "Examining health care workers' (HCWs') biomedical waste management (BWM) expertise in the midst of the COVID-19 epidemic"

Introduction is too short, therefore please add some more background of the study for the intro. Objective can be merge to intro part.

Please add literature review section for getting the previous research and current gap of the study.

Discussion part should be more to elaborate the problem with result.

Add a conclusion part please.

Instead of table please add chart for better explanation.
