I appreciate the opportunity to review this manuscript. The research topic is quite interesting and in accordance with current conditions.

The abstract is good enough and the benefits of this research need to be added

Some things that need to be fixed in this script:

Manuscripts should follow the usual structure and method of writing, namely introduction, objectives, methods, results, discussion, and conclusions.

In writing several sentences which are quotations, but not writing references, the title of the writing table must be above, the number of references used in this manuscript is still very small
