Potential competing interests: No potential competing interests to declare.

This topic is interesting. There are some suggestions to improve this paper.

This article tends to be descriptive more than analytic or critical.

The introduction should say what the next is.

Some sections should be expanded, such as the Unemployment section.

Statistics should be interpreted.

The fiscal policy section should include recent data if they are available.

It is helpful to refer or explain how the literature review method is used in this paper,
