

Review of: "[Mini Review] Role of Mango in Immune System"

Narayan Lal

Potential competing interests: No potential competing interests to declare.

Although the article is well written, it would be even better if the writers included some illustrations that explained how the various parts of mangos affect the immune system. Additionally, it is recommended that a table be included that lists prior research on the benefits of mango for the immune system as well as the quantity and dose of mango employed, along with a response expressed in quantitative terms. It seems that the article is more like a popular article than a technical one.
