The current work is very preliminary and needs some revisions to qualify it, such as:

- Rewrite the Abstract of this work, highlighting the relevance and importance of this work for the world scientific community, between 200-300;
- Rewrite and insert 5 (five) most relevant keywords;
- In the excerpt: "Social policies have long been hypothesized to improve health by providing key social goods that are needed for survival (housing, health care, education) to socially disadvantaged populations.[1][2][3][4]; " It's too short for only 4 references, please moderate the references in a single snippet;"
- Please insert more information and References in the Introduction of this work;
- I suggest revising the last paragraph of the Introduction, please rewrite reporting the purpose of this work;
- Please work better on the Methodology of this work, describe more and in more detail, I suggest using the 5W2H concept;
- Describe and insert more relevant information in the Conclusion of this work;
- Please insert more References in this current high-impact work (2017-2022);
- I suggest inserting one more topic, soon after the conclusion of this work, called Future Works, evidence of what is expected for the future of this work, it is worth commenting to highlight the importance of this work for the World Scientific Community;
