Potential competing interests: No potential competing interests to declare.

The manuscript deepened an interesting research topic, it systematically addresses the survey's results. Some notes will be shared in order to give an additional perspective.

It is suggestable to spell out and clarified the acronyms at the beginning.

The introduction could be better revised.

It would enrich the research to add more information about the data collection procedure and the sample of reference.

The conclusion could be expanded.

The references could be better indicated.
