GAIA Level 1 Preeclampsia

National Cancer Institute

Source

National Cancer Institute. *GAIA Level 1 Preeclampsia*. NCI Thesaurus. Code C128003.

GAIA Level 1 Preeclampsia is defined by three criteria: first, the gestational age of the pregnancy must be greater than or equal to 20 weeks; second, a diagnosis of new onset maternal hypertension (systolic blood pressure greater than or equal to 140mmHg and/or diastolic blood pressure greater than or equal to 90mmHg) that is sustained on two measurements over a minimum of one hour; third, a diagnosis of new onset proteinuria that is a level one diagnostic certainty (proteinuria diagnosed with greater than or equal to 300 mg of protein during 24 hour urine collection OR greater than or equal to 0.3 for spot protein:creatinine ratio.)
