The article provides a good review and addresses a very relevant topic. It should be published; however, I suggest some corrections:

- Keywords: should not be in the title (e.g., Mycetoma).
- Figure 1: (A), (B), and (C) must be indicated in the figure.
- In Table 1: Correct the word "Faline."
- In Table 1: Host from Israel (reference 29). It is not indicated.
- There is confusion in the text regarding nocardiosis and actinomycosis/actinomycetoma.
- Treatment does not make a difference between species.
