# Norfolk Terrier

National Cancer Institute

## Source

National Cancer Institute. *Norfolk Terrier*. NCI Thesaurus. Code C53726.

The Norfolk Terrier is among the smallest of the working terriers. It has a short, strong, sturdy body with strongly boned legs and a fox-like muzzle with large solid teeth. The coat is wiry and straight and come in red, wheaten, tan, black and tan, and grizzle - occasionally with white markings. The ears are hanging and tight to the cheeks. Height: 10 inches (25 cm.) Weight: 10-12 pounds (4 1/2-5 1/2 kg.)
