

# Review of: "Subjective Probability Theory for Decision Making"

Ana María Sánchez Pérez<sup>1</sup>

<sup>1</sup> Universidad de Almería

**Potential competing interests:** No potential competing interests to declare.

The paper is good. However, I miss more recent literature (see others Reviewer's advised references).

Only 3 references of a total of 10 are from the last five years. This rate is scarce. I recommend the author to amplify it in order to get a deeper literature review.

Thank you very much.

Best regards
