House allergic alveolitis

INSERM

Source

INSERM. (1999). Orphanet: an online rare disease and orphan drug data base. House allergic alveolitis. ORPHA:99907

House allergic alveolitis is a hypersensitivity pneumonitis (see this term) resulting from the inhalation of an antigen to which an individual has been previously sensitized in his/her domestic environment. House allergic alveolitis encompasses summer hypersensitivity pneumonitis, humidifier-induced lung diseases, hot tub lung and legionellosis (see this term).
