Potential competing interests: No potential competing interests to declare.

- Title needs to be rewritten. Please keep in mind the objective of the study and avoid overlapping of words.
- Methodology: Please rewrite the whole methodology as the summary and specific information; Sampling frame and technique need to be added; Sample size, data collection technique and data analysis technique need to be described according to the quantitative and qualitative approach. Mention the name of statistical test in the Data Analysis Technique part. Please add Institutional Review Board (IRB) number in the Ethical Consideration part.
- Results: Please rearrange and make specify table 6. Overall analysis technique and table presentation is so poor. Need reconstruction in tables and should perform regression analysis to observe the association. Need to add the result of overall knowledge and practice level to justify Table 6.
- Discussion and conclusion is also rewritten according to the new analyzed results
- Overall language and grammar improvement is needed.
