Potential competing interests: No potential competing interests to declare.

The paper is well-written.

I can see too many paragraphs which can be rearranged: The small paragraphs can be merged to make a reasonable size of paragraph.

"The specific objectives are to;" here the word to can be removed as all the objectives are starting with 'TO'.

The section stating the Research Questions is part of the study, so these questions (1 to 5) can be removed from the text: the research questions are part of the methodology and can be written in the form of discussion.

Do not put bullets; instead, number them as i, ii... or a, b, c.... in section 2.3.

The scale of the Y-axis can be changed to accommodate small values in Figs. 4&5.
