Thanks so much for this interesting topic, but I have some comments if you wouldn't mind:

1. Title: you mentioned "Post-Pandemic Nigeria" which pandemic? You should give a paragraph about this pandemic and the changes happened because of it.
2. Introduction: write in a logic order, start with the history as you did but proceed to the present pandemic and the future challenges.
3. No need to number the paragraphs, you should write consequently.
4. Add a separate section titled recommendation before conclusion.
5. Conclusion: don't add references in this section
