

Review of: "Length of stay of patients in Acute Medicine Units at the Royal Hospital, Sultanate of Oman in one month"

Ibtissam Khalfaoui

Potential competing interests: No potential competing interests to declare.

In general, the paper is poor in information. The authors must improve the quality of their paper:

The authors should separate the introduction from the literature.

At the end of the literature, the authors should show the added value of their paper, in comparison with what has already been done.

The method part is very small, more details are needed.

The authors should rephrase the conclusion and add the perspectives.
