## **REVISION OF The ARTICLE: Synthesis and Antibacterial Screening of Cefradine Schiff Bases and Their Metal Salts**

Hello everyone, after a deep reading of this article, I see that there are remarks to note

- An English revision of this article is recommended
- For antibacterial activity; it is necessary to specify the references of the strains used or their origin.
- An update of references is also recommended, have recent references...
- Thus, the presentation of the results in the manuscript, especially the synthetic compounds to be rechecked. a comparison of the results obtained with those in the literature is requested. Good luck
