Dear author, I would like to make the following comments that I hope will improve your manuscript.

- 1.- In summary, please add the objective of the review and clarify what the problem to be solved is.
- 2.- In the method section, please expand information on the information search strategy.
3. In the method section, expand information on the inclusion and exclusion criteria.
- 4.- In the method section, please expand information on the data selection process.
5. In the methodology section, you describe 21 components and five levels of leadership to be analyzed, but in the results section, you report components not considered in the method such as emotional intelligence.
- 6.- I recommend adding a table in which the findings of the 31 identified studies are synthesized.
