Potential competing interests: No potential competing interests to declare.No potential competing interests to declare.

In the title, the extract used specifies

Abstract results

The phytochemicals screened from the ethanol leaf extract

You mean The Chemical classes or groups screened from the ethanol leaf extract

to eliminate

if we give a value, it means that the product is present

Tables 3 and 4: Draw real tables

Missing interpretation of results

Missing results of statistical analysis?

The conclusion is very daring

46% of references are old and need to be refreshed

Interesting work and deserves to be published after improvement and moderate correction

Title

Efficacy of Anogeissus leiocarpus extract as a therapeutic agent against some pathogenic bacteria
