

Review of: "[Case Report] Occlusive Syndrome by Internal Transmesosigmoid Hernia: A Case Report and Review of the Literature"

Rajan Ghimire

Potential competing interests: No potential competing interests to declare.

What operative procedure was done for the bladder stone?

What is RAS mentioned in the medical history? Please use the full form.

Please confirm the value of BP mentioned during presentation. What is FR in the vital sign? Please do not use abbreviations that are not internationally acceptable and provide the full form when they appear for the first time in the text.

Please mention the vascularity status of the colon in per-operative findings. Why was bowel resection done?

Please provide a self-explanatory caption for figures with the mark in the figure for the item described in the caption.

Please rewrite the conclusion. In this section, please provide your findings rather than findings from other studies or your personal opinions that are not supported by the data of the study.

Please follow the journal guidelines for referencing styles. What do the alphabets in superscript stand for just after numbers in the reference list?

References 2, 7, 8: please correct the placement of the publication year.

Is reference 18 relevant to this study?
