

Review of: "Studying the Level of Livelihood Vulnerability and the Necessity of the Work Developing a Farmhouse Economic Economic Model to Adapt to Climate Change in the Coastal Area of Ben Tre"

Neelam Kadian

Potential competing interests: No potential competing interests to declare.

Based upon my understanding, the following are the required modifications which may improve the quality of the research paper:

1. Reframe Title: Too long and economic word is repeated
2. Abstract needs to be reframed by adding result summary.
3. I think the word "model" needs to be deleted from the paper as only gathered survey data has been analysed.
4. At many places, ... can be seen, which needs to be removed.
5. Please propose solutions based upon the findings/results.
6. Work is interesting; however, efforts are required to explain the outcomes in a better way.
