## MANUSCRIPT COMMENTS

TITLE: The anti-staphylococcal activity of probiotic-containing gelatin and whey coatings on processed chicken breast

- 1) Authors should correct the names of the microorganisms in some paragraphs of the manuscript.
- 2) Authors should justify the large error bars that are in figure 1, and provide a strong discussion of the results of the design of experiments.
- 3) Authors should present a discussion of the results on the time of protection provided by gelatin and probiotics in the studied food.
