

# Review of: "[Review Article] A Comprehensive Overview on Pharmacological and Therapeutic Insights of Solanum nigrum Linn"

Kanakasabapathi Devaki

Potential competing interests: No potential competing interest in publishing the article

2.. Traditional uses and phytochemistry- 6th line These are **-have to be modified as** -They are.

Other than this, the review is well categorised, well written, and well organised. If possible, in the same family, two other plants with similar leaf morphology that have some adverse effects on the human system may be added at the conclusion part for creating awareness to avoid misuse of these plants.
