Dear Editorial Team,

Dear Authors of the Article,

I am pleased to have been invited to review the article "A Comprehensive Overview on Pharmacological and Therapeutic Insights of Solanum nigrum Linn." As part of the conceptualization and drafting process, the authors have spent significant time and effort. In my opinion, it is well written and summarizes the most important pharmacological effects of Solanum nigrum Linn.

For added value, a diagram could be added to the introduction; for example, a PRISMA 2020 flow diagram for all articles found about Solanum nigrum Linn.

Thank you for your understanding.

Best regards,
