

Review of: "Effect of liraglutide on expression of inflammatory genes in type 2 diabetes"

Mohamed El-Mesery

Potential competing interests: The author(s) declared that no potential competing interests exist.

This manuscript is well written and well organized and also represents novel findings.

The only comment that can be discussed but do not affect on the publication of this manuscript or its value that the sequences of primers used in the study were not mentioned in the manuscript or even references regarding their sources.

Thanks
