

# Review of: "Synthesis and Antibacterial Screening of Cefradine Schiff Bases and Their Metal Salts"

S. G. Nozha

Potential competing interests: No potential competing interests to declare.

I recommend acceptance of this review for publication with minor reversion:

- The references should be updated (most recently in 2017, what about the following years?)
- The review requires some figures representative of the results which listed in the tables. Not all, but some selected figures whether for <sup>1</sup>H-NMR analysis and also Biological Activity..
- The manuscript has many grammatical, typographical and spelling mistakes.
