Urolithin

National Cancer Institute

Source

National Cancer Institute. *Urolithin*. NCI Thesaurus. Code C112042.

Hydroxy-6H-dibenzo[b,d]pyran-6-one derivatives that are the products of the metabolism of ellagitannins by intestinal bacteria. The biological activity of urothilins is unknown; however, these compounds are under investigation to determine if they have a mechanism of action that is similar to other phytoestrogens.
