Dear Editor

I have critically reviewed the sent paper.

I found the article to be well-mannered and excellently drafted.

Title: Objective and title are consistent (Good)

Abstract: Unstructured and well written, resulting in the actual findings of the main purpose.

Introduction: Funnel-shaped approach used, well written, and rationale mentioned.

Methods: Study setting, duration, inclusion/exclusion criteria, and ethical issues addressed here.

Results: Findings were as per the objective, well, and novel types of findings.

Discussion: Discussed very well and needs to add a few recommendations and limitations.

Conclusion: Must be as per findings.

References: As per journal format.

Thank you for considering me as a potential reviewer.
