Potential competing interests: No potential competing interests to declare.

Very educative and mostly-needed tool in the effort to instill awareness on issues pertaining to the environment. The edu-Kit developed can make the effort more practical.

The author (cum inventor of the edu-kit) has successfully looked (and investigated) all relevant aspects to ensure the objective of the edu-kit can be achieved both quantitatively and qualitatively.

The kit is not only feasible (and needed), but it can at the same time educate users about the SDG components, in particular, as mentioned by the authors, SDGs 3 (human well-being), SDGs 8 (economic growth), SDGs 9 (infrastructure), SDGs 13 (climate), SDGs 14 (life below water), and SDGs 15 (life on land).
