Potential competing interests: No potential competing interests to declare.

The topic of the paper is interesting; however, the methodology, as well as the results and discussion, are not clear. Please state clearly the approach, the research stages, the data collection method, and the statistical techniques, formulas, and tools. Reference to previous studies needs to be elaborated.

The data processing, results, and discussion need to be clearly described. Any advantages and disadvantages compared with other studies need to be described.

The abstract, the managerial implications, and the conclusions need to be strengthened.
