PROMIS-29 Adult Profile v1.0

National Cancer Institute

Source

National Cancer Institute. *PROMIS-29 Adult Profile v1.0*. NCI Thesaurus. Code C132903.

A 29-item multidimensional and universal measure of health intended for use across a variety of conditions. It measures an adult patient's self-reported health status in seven domains: physical function, anxiety, depression, fatigue, sleep disturbance, pain interference, and participation in social roles.
