Respected sir, I gone through the paper. I suggest some of the points.

1. As the title itself contains Foucauldian terminologies such as Order of things and resistance, it is better to define these terminologies briefly.
2. It is better to give more thrust to the heroine Julia by analysing her character from the resistance point of view, As here hero is alone given much thrust.
3. What connects 'order of things' and 'resistance' can be briefed (it means power)
4. As the introduction says 'relevance of Orwell is going to be discussed' more points can be put with respect to sousveillance relevantly.
